

Physics Postgraduate Programme of UFRGS invites applications from students from Developing Countries

The Physics Postgraduate Programme of the Federal University of Rio Grande do Sul (UFRGS)¹ invites applicants from Developing Countries² to apply to the CNPq/TWAS (03/2017) scheme in research areas covered by the programme: Astrophysics, Experimental and Theoretical Physics.

UFRGS is located in Porto Alegre, the capital of the southernmost state of Brazil, and the Physics Postgraduate Programme has ~70 faculty staff and ~100 students, with strong international influence. The Programme has been granted the maximum score (CAPES 7) in the evaluation of the Postgraduate Programmes in Brazil.

The CNPq/TWAS scheme supports applicants from Developing Countries holding a MSc degree in the Natural Sciences. The duration of the fellowship is four years and the successful applicant should start in 2018. Before applying, the candidate should seek a PhD supervisor and request a letter from the head of the postgraduate programme supporting his/her application. The list of supervisors of the Physics PhD Programme can be found here³.

Deadline for applications to the CNPq/TWAS scheme: 11/08/2017. Detailed policies and application instructions may be found in the Announcement of Opportunity⁴.

Enquiries about the CNPq/TWAS fellowship in the Physics Postgraduate Programme at UFRGS should be directed to:

Ana Chies Santos (ana.chies@ufrgs.br) — Astrophysics

Fabiano Bernardi (bernardi@if.ufrgs.br) — Experimental Physics

Daniel Gamermann (danielg@if.ufrgs.br) — Theoretical Physics
