## Post-doctoral fellowship positions from the Physics Graduate Program of *Universidade Federal do Rio Grande do Sul (UFRGS), Porto Alegre, Brazil*

This call aims to select candidates for post-doctoral positions with a one-year fellowship, extendable to another year, subject to performance evaluation. This concession is regulated by the CAPES order nº 086 of 07/07/2013 and the fellowships are under the Graduate Program in Physics (PPGFis) of UFRGS.

The fellowships will be implemented from **December 1<sup>st</sup>, 2019**.

Proposals must be submitted electronically by the supervisor to [cpqfis@if.ufrgs.br](mailto:cpqfis@if.ufrgs.br) until **November 1<sup>st</sup>, 2019**. The supervisor/applicant must be a permanent member of PPGFis-UFRGS graduate program.

For new applicants the request must be accompanied by the following documentation:

- Curriculum Vitae “Lattes” of the supervisor and the candidate (in the case of a foreigner, other forms of Curriculum Vitae are acceptable);
- Research project;
- Proof of candidate's doctoral title.

For applicants who are already post docs of PPGFis, the request must be accompanied by the following documentation:

- Curriculum Vitae “Lattes” of the supervisor and the post doc;
- Last year's activity report with a list of the publications of the period (up to 5 pages);
- Research project for the second year.

---

The evaluation will be carried out in two stages: a first stage, eliminatory, through the analysis of the documents sent and a second stage, with the presentation of short seminars.

**1<sup>st</sup> stage)** The evaluation committee will consider the following itens to generate the ranking of the candidates:

**A)** CAPES criteria for the Post-doctoral fellowship program:

I - To promote high level studies;

II – To strengthen national research groups;

III - To renew members of the Graduate Programs in the institutions of higher education and research;

IV – To promote the insertion of Brazilian and foreign researchers in a post-doctoral stage, stimulating their integration with research projects developed by the Graduate Programs in the country.

**B) As specific criteria of the PPGFis:**

I - The promotion of rotation between research areas and supervisors applying to post-doc fellowships in the Program (contemplating different proposals alternately);

II - Preference for cases of repatriation of candidates or candidates with less continuous time at the *Instituto de Física*, of UFRGS, either in post-doctoral and / or PhD positions;

III - The CV, the candidate's project and, where applicable, the last year PNPB report;

IV - The CV of the proponent supervisor.

**C) Remarks:**

I - Each supervisor can apply for only one candidate.

II - The post-doc fellowship period at PPGFis for each candidate cannot exceed two years.

The result of the pre-selection will be announced on **November 8<sup>th</sup>, 2019**.

**2<sup>nd</sup> stage)** The pre-selected candidates must defend the project and production, in the form of seminars (in person or remote). The dates for the presentations of these seminars will be announced together with the results of the pre-selection.

The result of the evaluation will be announced on **November 25<sup>th</sup>, 2019**. Requests for review of the selection process may be sent until **November 27<sup>th</sup>, 2019**. The **final result** will be announced on **28<sup>th</sup>, 2019**.

The validity of this call for post-doctoral positions expires eleven (11) months after the publication of the result of the evaluation.

Porto Alegre, **October 1<sup>st</sup> 2019**.

Kepler de Souza Oliveira Filho

PPGFis Coordinator
